Your Trusted Partner in Process Instrumentation

Change Description:

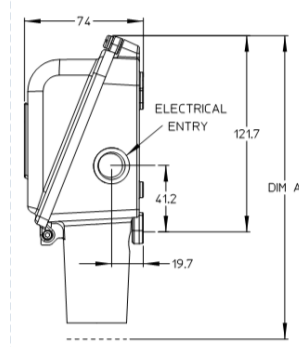

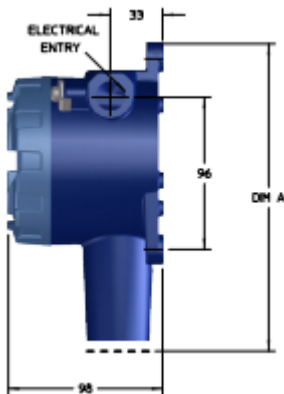

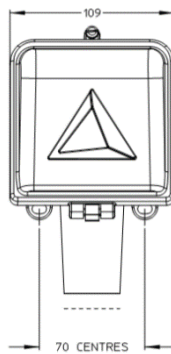

This notification is to advise our customers that Delta is introducing new revision of Sentry weatherproof and intrinsically safe enclosures. The new enclosures are of similar aluminium alloy. The performance characteristics of the new model is identical to the previous model.

Physical differences between 2 enclosure types are shown below

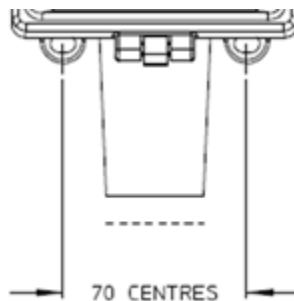

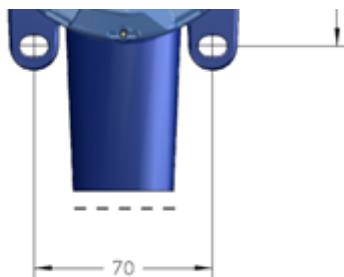

New Model

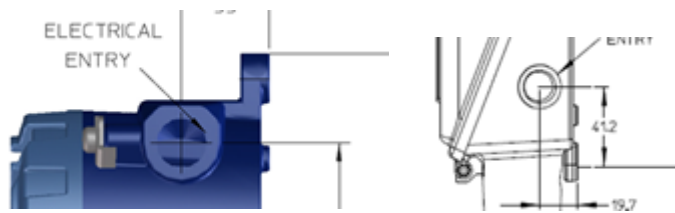

Old Model (W/5)

The fixing points are exactly same between the two models

And the cable entry is on the same side.

New options

The new revision includes option to have dual electrical entries.

Certification/ Qualification

ATEX and IECEx certificates for the Intrinsically safe models now includes the new enclosure type.

Quantifiable impact on Quality and Reliability

None
