POLICY

The Delta Mobrey Senior Management Team are committed to developing Delta Mobrey into a highly profitable, world-class global supplier with a comprehensive range of premium quality instruments and services for various industries. This is in the best interests of our customers, shareholders, employees and suppliers. To achieve this, we are committed to:

1. Driving quality from the Senior Management Team down by regularly reviewing the suitability, adequacy and effectiveness of the quality management system, the quality policy, quality objectives, and process kpi's.
2. Ensuring Delta Mobrey meets or exceeds all applicable requirements, including statutory, regulatory, and contractual customer requirements.
3. Ensuring that all Delta Mobrey processes conform to the requirements of BS EN ISO 9001:2015 and any internal standards or policies.
4. Ensuring compliance with the requirements of relevant national regulations, European directives, and international standards, where applicable. This includes such standards as: ISO/IEC ATEX (Explosive Atmospheres), LVD (Low Voltage Directive), EMC (Electro-Magnetic Compatibility), PED/PER:(b) (Pressure Equipment Directive), and nuclear standards such as RCC-E and IEEE.
5. Creating a working culture that actively promotes customer focus, health and safety, risk-based thinking, and continual improvement of the quality management system and the way we work.
