

Dear Customer

Change of Address for Delta Mobrey in the UK

It is with great excitement we announce Delta Mobrey is moving. We are combining our two UK factory and business premises into one combined site which will be open from 3rd January 2023.

The new site is based between the two current sites and the revised contact details are:

Address:

Delta Mobrey Ltd
Hudson House
Albany Park
CAMBERLEY
GU16 7PL

Telephone Number

01252 729140

E-mail

salesadmin@delta-mobrey.com

This centralised hub has been specifically designed to streamline our production processes and improve all communication channels, thereby enabling improved customer interaction and faster delivery times. Customer critical information can be assimilated quicker and with greater accuracy, giving all customers a positive customer experience when working with us.

This new venue is almost 37,000 sq ft, giving us plenty of potential to update equipment and plan our process flow within our machine shop. Being aware of our social and corporate responsibility we are looking to become as “green” as possible and have installed a new heating system, paperless office and charging points for electric cars. We look forward to working with you from our new premises in January 2023, and hopefully showing you around our new facility in the coming months.

For more information on the move please visit <https://www.delta-mobrey.com/delta-mobrey-building-for-the-future/>

Yours sincerely

Vahid Fathabadi
Head of Sales and Marketing
