Declares under our sole responsibility that the product(s):

Equipment: **VM Series Pressure & Differential Pressure Switches**

Type Numbers: **AVM2**, AVM4****

with Switch Option, 04, 05, H2, H3, H4, H6

(Minor variations in design to suit the application and/or mounting requirements are identified by alpha/numeric characters where indicated * above)

Has been assessed to EN 1127-1 (Explosive atmospheres – Explosion prevention and protection. Part 1. Basic concepts and methodology) and does not have a potential source of ignition for an explosive atmosphere, during normal intended use, a malfunction or even a rare malfunction.

The product does not fulfil the definition of equipment in Article 2 (1) of Directive 2014/34/EU (Equipment Explosive Atmospheres (ATEX)) and is therefore outside the scope of this Directive and does not have a Declaration of Conformity or CE mark related to this Directive.

The product has no source of internal heating, the temperature classification is dependent on the ambient air temperature and the temperature of the process vessel to which it is attached. When attached to a vessel where the process temperature and the ambient air temperature are less than 85°C, it will have a temperature class T6.

It is the responsibility of the user to ensure the tightness of the process connection.

The product complies with EN IEC 60079-0 and EN 60079-11 clause 5.7 “Simple Apparatus” when used in an intrinsically safe circuit and may be installed in an explosive atmosphere.

The products should be installed, used, and maintained by suitably trained personnel, in accordance with the applicable code of practice. (See manual applicable to the variant)
